

NOURBIA FOODS™

Advancing Culturally Relevant Nutrition • Meeting People Where They Are

CUSTOM PLATFORM

OFFICIAL SCOPE & QUOTATION

Doc Ref: NB-PROP-2026-V2

Date: September 15, 2026

Scope: Custom E-Commerce & Platform

Executive Architecture & Scope Overview

This proposal outlines the end-to-end technical scope, modular architecture, and effort estimation for building the **Bespoke Nourbia Foods Custom E-Commerce & Digital Platform** (No Shopify). The solution is engineered as a modern, high-performance web platform featuring a dedicated D2C Storefront (7 Categories & 4 Heritage Lines), Interactive Nourbia Food Box Builder & Subscriptions, Community Taste Lab & Food Sovereignty Feedback Loop, B2B Wholesale & RFQ Engine, Surplus Food Recovery Intake, and a Comprehensive Multi-Role Operations Admin Dashboard powered by **Stripe Payments & Stripe Billing**.

TOTAL MODULES

18 Core Modules

PAYMENT ENGINE

Stripe Fullstack

ARCHITECTURE

**Custom Next /
Node**

TOTAL EFFORT

384 Hours

⚡ CUSTOM FULL-STACK CORE

Next.js App Router, TypeScript, PostgreSQL (Prisma), Redis cache, and AWS S3 cloud asset pipeline.

💳 STRIPE PAYMENT & BILLING

Stripe Elements (Cards/Apple Pay/Google Pay/Link), Recurring Subscriptions, and Idempotent Webhooks.

📦 DYNAMIC BOX BUILDER

Interactive slot-swapping (Individual, Family, Multi-Family, Custom), constraint engine & auto-manifest.

🍷 COMMUNITY TASTE LAB

Dynamic QR batch scanner, 4-step sensory evaluation, Cultural Wishlist voting, and referral perk wallet.

📄 B2B WHOLESALE & RFQS

Automated PDF line sheet downloads, sample kit ordering, tiered case calculator, and Net-30 onboarding.

🛡️ ADMIN OPERATIONS CONSOLE

Multi-role RBAC, SKU & stock manager, live order fulfillment, carrier label integration, and demand heatmaps.

Module Breakdown & Detailed Engineering Deliverables

384 Total Hours

MODULE & DETAILED DELIVERABLE TASKS	HOURS
1. System Architecture, DB Modeling & Infrastructure	16 hrs
▶ System Architecture Design & Cloud Infrastructure Setup (Next.js / Node.js / PostgreSQL / Redis)	8
▶ RESTful & Server Action API Framework with Zod Validation & Rate Limiting	8
2. Design System, Global Layout & Multilingual i18n	14 hrs
▶ Design System Setup & Design Tokens (Typography, Brand Colors, Spacing, UI Component Library)	8

MODULE & DETAILED DELIVERABLE TASKS	HOURS
Global Faceted Instant Search Engine with Keyboard Navigation & Recent Queries	6
3. Homepage & Brand Story Experience	28 hrs
Hero Section with Dynamic Messaging & Dual CTAs (Explore Products / Work With Us)	5
Featured Products Showcase Carousel with Category & Heritage Tabs	5
Freeze-Drying Innovation & Preservation Science Interactive Showcase	4
Nourbia Food Baskets Teaser & Dynamic Configurator Preview	5
Cultural Food Sovereignty & Community Voice Section	4
For Business (B2B) & Surplus Food Recovery Hub Teaser	3
Brand Mission & Founder Story (Prove • Build • Scale)	2
4. Custom Product Catalog & Faceted Search (7 Categories)	12 hrs
Catalog Page Architecture & Layout (Fruits, Veg, Proteins, Staples, Spices, Prepared, Snacks)	6
Catalog Performance Optimization & Server-Side Rendering (SSR/ISR)	6
5. Product Detail Page (PDP) & Rehydration Guides	21 hrs
PDP Layout, Interactive Multi-Angle Gallery & Zoom Viewer	6
One-Time vs Recurring Subscription (15% Off) Purchase Engine	6
Related Products & Dynamic Cross-Sell Recommendation Engine	4
Customer Reviews & Taste-Test Authenticity Badge Display	5
6. Custom Nourbia Food Box Configurator & Assembly Engine	30 hrs
Multi-Step Interactive Box Builder UI (Individual [6], Family [12], Multi-Family [24], Custom)	10
Real-Time Box Completeness Validation & Nutritional / Weight Summary Aggregator	8
Backend Box Manifest Validation API & Inventory Reservation	6
Interactive Box Customizer Mobile Touch Optimization & Micro-Animations	6
7. Custom Shopping Cart & Checkout Engine	12 hrs
Slide-Out Persistent Cart Drawer & Dedicated Cart Page (Local + Auth Server Sync)	8
Dynamic Free Shipping Progress Threshold Calculator	4
8. Custom Stripe Payment Engine & Subscription Billing	34 hrs
Stripe Elements Integration (Credit/Debit Cards, Apple Pay, Google Pay via Payment Request Button)	10
Stripe PaymentIntent Server Orchestration & 3D Secure (SCA) Compliance	8
Stripe Billing & Subscriptions Engine for Recurring Box Orders & D2C Subscriptions	10
Stripe Customer Portal Integration for Self-Service Payment Method Updates	6
9. Core Services Hub (/services) & Interactive RFQ Engine	22 hrs

MODULE & DETAILED DELIVERABLE TASKS	HOURS
6 Capabilities Deep-Dive Showcase (Sourcing, Processing, Freeze-Drying, R&D, Packaging, Dist)	6
Interactive Service Scope & Volume Calculator for Prospective Brands/Clients	8
Custom Technical RFQ Submission Workflow with File/Spec Attachment Uploads	8
10. Community Taste Lab & Cultural Food Sovereignty	28 hrs
Dynamic QR Batch Code Landing Page & Resolver (/taste-lab?batch=...)	6
Cultural Food Wishlist & SKU Community Voting / Leaderboard Engine	8
Automated Reward Coupon & Viral Shareable Referral Link Engine	8
Backend Analytics Engine for Community Demand Aggregation & R&D Reporting	6
11. B2B Wholesale & Food Service Portal (/b2b)	28 hrs
B2B Hub Landing Experience (Retail Ready, Food Service, Private Label, Bulk Ingredients)	6
Automated Digital Line Sheet & Spec Sheet PDF Generation & Instant Download Engine	8
Wholesale Sample Kit Ordering & Business Application Form	6
Tiered Case-Price Calculator (Volume Discounts & Margin Estimator)	8
12. Partners & Surplus Food Recovery Portal (/partners)	18 hrs
Partner Hub Experience (Farmers, Producers, Retailers, Distributors, Brands)	5
Quality Intake Criteria Interactive Guide & Food Safety Spec Viewer	5
Backend Surplus Sourcing Ingestion API & Operations Dashboard Routing	8
13. Customer Account Dashboard & Self-Service Portal	21 hrs
Authentication & Security (Registration, Email Verification, Login, Forgot/Reset Password, Magic Link)	8
Customer Profile & Multi-Address Book Management (Shipping & Billing)	5
Order History Dashboard with Real-Time Tracking & PDF Invoice Generation	8
14. Custom Multi-Role Admin Dashboard & Operations Console	30 hrs
Role-Based Access Control (Super Admin, Catalog Manager, Fulfillment Officer, B2B Sales)	8
Box Tier & Slot Allocation Rule Configurator	8
Taste Lab Community Feedback Analytics & Wishlist Demand Heatmaps	8
B2B RFQ & Surplus Food Recovery Pipeline Lead Management	6
15. Transactional Email & Notification Engine	10 hrs
Transactional Email Infrastructure Setup (SendGrid / Resend / AWS SES) with Branded HTML Templates	6
Optional SMS Notification Gateway (Twilio / AWS SNS for Order & Box Delivery Updates)	4
16. Shipping Matrix & Fulfillment Rules	20 hrs
Shipping Rate Calculation Matrix (Weight-Tiered, Shelf-Stable, Cold-Chain Rules)	8

MODULE & DETAILED DELIVERABLE TASKS	HOURS
▶ Carrier Tracking Integration (EasyPost / Shippo / USPS / UPS webhooks)	8
▶ Delivery Exception & Return / Replacement Handling Engine	4
17. Security, Compliance, SEO & Performance Optimization	14 hrs
▶ Security Hardening (PCI-DSS Compliance via Stripe, OWASP Top 10, CSRF, Rate Limiting, Input Sanitization)	8
▶ Multilingual Content Localization & Translation File Management	6
18. End-to-End QA, Stripe Testing & Cloud Deployment	26 hrs
▶ Automated Unit & Integration Tests (Pricing, Box Slot Engine, Webhooks, Auth)	12
▶ End-to-End User Journey QA (Playwright: Shop -> Box Customizer -> Cart -> Stripe Checkout -> Webhook -> Order Fulfillment)	14

TOTAL ESTIMATED DEVELOPMENT EFFORT

Includes Custom UI/UX, Full-Stack Development, Stripe Integration, QA & Production Cloud Launch

384 HOURS

Project Phasing & Strategic Roadmap (Prove • Build • Scale)

16 Weeks

PHASE 1: PROVE (WEEKS 1–6)

Architecture, Database Schema, Custom D2C Storefront (Haitian line proof-of-concept), Stripe Elements & Checkout, Food Box Builder MVP, and Community Taste Lab QR resolver.

PHASE 2: BUILD (WEEKS 7–11)

Recurring Stripe Subscriptions, B2B Wholesale Portal & Line Sheets, Core Services RFQ Hub, Surplus Farm Recovery Intake, Customer Account Dashboard, and SendGrid transactional emails.

PHASE 3: SCALE & LAUNCH (WEEKS 12–16)

Multi-Role Admin Console, Carrier Shipping Labels (EasyPost), Multi-language i18n (EN/HT/FR/ES), Security Audits, Automated Playwright E2E Testing, and Production Cloud Launch.

PROJECT TERMS & ENGAGEMENT GUIDELINES

- Scope Baseline:** All deliverables encompass custom software development, custom database modeling, Stripe API integration, and cloud deployment as defined in this specification.
- Testing & QA:** Includes automated unit testing, end-to-end user journey tests (Playwright), and Stripe sandbox-to-live transactional verification.
- Client Assets:** High-resolution brand assets, product imagery, and copy will be integrated as provided based on Nourbia brand standards.
- Warranty & Handover:** 30 days of post-launch hypercare, bug fixes, operational handover documentation, and staff training are included.
